

## AIRLIE SUMMIT

Vision Surveys have been extensively involved in the planning phase of this project by means of amending the preliminary approval for the subject allotment.

Vision further continued with all civil engineering set out for the preliminary stages as well as the titling and registration of new lots.

Vision has been project managing and coordinating this project on behalf of our client. This has involved dealing with Local and State Governments, sub-contractors, other professionals whilst delivering the project on budget within an appropriate time frame.
